Announcer: Let's Connect. Hear from the community at the 2022 LSAC Law School Forums.

Justin: Hi, my name is Justin Norris. I'm a 2L currently at Columbia Law School. Whenever I was at my LSAC Forum, when I was applying to law school, it was totally virtual. Obviously, we're in the midst of the pandemic. Having perspective students now coming up and talking to me and asking about my experience as a current student or the application process, it's a lot more conversational. I think it really, to me, articulates the importance of events like this to be able to get that face time with law schools and, honestly, to demystify the admission cycle, which can be so competitive and so scary and to realize that there are people on both sides.
