NextGen Bar Exam Readiness Assessment

Prepare your students for the NextGen Bar Exam with a clear understanding of the exam's requirements and actionable guidance on how to tailor your curriculum appropriately. As the exam shifts towards a writing and skills-based assessment, conventional methods of preparing students will no longer suffice. We will help you develop the curricula and programming necessary to support your students in meeting the new licensing standards. Specifically, we can assist in infusing your curriculum with practical skills training that tracks the competencies tested on the NextGen Bar Exam and required for the effective practice of law. With our service, your law school will be well-prepared to help students navigate the new bar exam and achieve success.

Academic Program Evaluation

Maximize the rigor of your academic program with our expert guidance using an academic evaluation process uniquely tailored to your needs and goals. Working collaboratively with your school, we'll review the effectiveness of your academic program (or a subset of it), using data as the underpinning of the review. This holistic evaluation will identify ways to improve the quality of your academic program, provide feedback to faculty and administrators, and ensure that programs, policies, and curricula are producing desired outcomes.

Diversity, Equity, and Inclusion Consulting

Implement best practices across the curriculum, student life, and campus culture and support the success of all students with our Diversity, Equity, and Inclusion Consulting. These essential training and coaching options empower faculty, staff, and students to spot and overcome bias while promoting a welcoming and inclusive environment for all. By embracing diversity and inclusion, your law school will attract and retain top students and cultivate a more modernized campus climate. Our consulting service will educate your faculty, improve communication with diverse audiences, and help your school align with its mission to diversify the legal profession.

Strategy Consulting

Work with us to build a customized strategy to achieve your institutional goals. Our comprehensive approach begins with a discovery discussion about the specific challenges your institution is facing. Topics covered can include enrollment management, training, bar passage, strategic planning, accreditation, and much more.
