LSAC Resources for Law School Deans

Data, Insights, and Strategic Solutions

LSAC® was created by law school deans who wanted to make legal education accessible and equitable. As a dean, you play an important role in bringing together the people, the processes, and the systems to support students and help them thrive. You play a pivotal role in the always-changing legal profession — by managing what's happening at your law school and university, but also by staying on top of trends in your community, nationally, and beyond.

You are shaping the future one student at a time, and we are here to support you.

Solutions to Help You Achieve Your Institution's Goals

Cultivate a Strong and Diverse Pipeline — Now and in the Future

LSAC invests significantly to expand the prelaw pipeline and connect you with prospective applicants.

Recruiting

LSAC's digital marketing campaigns, **Law School Forums**, pathway support with **Plus, Guided Journey**, and generous **fee waiver program** help you recruit your ideal class. The **Candidate Referral Service (CRS)** along with **digital marketing services**, part of Legal Education Consulting, can help you identify and reach prospective applicants with precision and build a stronger, more competitive, and diverse pool of applicants.

Admission Assessment

The **LSAT**® is the only standardized assessment designed for law school admission, with unmatched validity and reliability, and with input from law schools on the skills that matter most. Correlation studies consistently show that the LSAT is the best single predictor of first-year law school success, and that LSAT score combined with undergraduate GPA is the best predictor of all. Properly used, the LSAT **is a powerful tool, as part of a holistic admission process, for increasing access** and identifying qualified applicants who may otherwise be overlooked.

LawHub®

Free and low-cost tools and resources — from LSAT prep to 0L preparation courses and preprofessional development — LawHub equips prospective students with the skills they need to succeed in law school, helping your institution attract, admit, and enroll a more prepared and more confident class.

Power the Law School Admission Team

LSAC provides admission professionals with tools, resources, and data to recruit effectively and achieve enrollment goals.

Enrollment Management

LSAC helps your admission team identify and connect with prospective students through the **Candidate Referral Service (CRS)** and Law School Forums. Additionally, we provide enrollment modeling, custom reports and dashboards, and staffing support and training.

LSAC enables faster and more efficient file review through the **Credential Assembly Service (CAS)**, while **LSAC Unite**®, our powerful enrollment management platform, helps your admission office spend less time on process and more time on high-value work.

Through the **Candidate Referral Service (CRS)**, you gain access to the most comprehensive and qualified database of law school applicants, enabling you to target candidates based on key factors such as undergraduate GPA, LSAT score, and geographical location. CRS helps you build a stronger, more competitive, and diverse applicant pool — supporting your school's long-term enrollment and academic goals.

Drive Innovations in a Dynamic Landscape

Our experts understand the data, trends, and cycles that shape legal education. From strategic planning to enrollment management to support schools with student academic and bar passage success, LSAC's tools and resources help law school leadership make effective decisions.

Research and Data Insights

LSAC provides a wide range of **applied research** and data, including applicant volume data that is updated daily. You can access data and expert perspectives through LSAC Insights, which includes resources such as our **Law:Fully blog** and the **Keeping Up to Data podcast**.

We offer detailed reports on LSAT test taker scoring patterns after every test administration, correlation studies demonstrating the validity and reliability of the LSAT, and in-depth analyses of key legal education trends and issues.

Professional Development

Throughout the year, admission and other law school professionals can engage in webinars and workshops to exchange ideas about the challenges they face. The **LSAC Annual Meeting and Educational Conference**, held in late spring, is complemented by year-round programming for admission professionals, including regular webinars hosted by RISE Alliance which supports the leadership and professional needs of student-facing law school staff. **LSAC's Newcomers Workshop**, the only education program designed for new JD and LLM law school admission professionals as well as those who oversee master's and certificate programs, is held each year in September.
