General Directions for the LSAT Large Print Answer Sheet

This test consists of four multiple-choice sections. The proctor will tell you when to begin and end each section. If you finish a section before time is called, you may check your work on that section **only**; do not turn to any other section of the test book and do not work on any other section either in the test book or on the answer sheet.

Answer spaces for each question are lettered to correspond with the letters of the potential answers to each question in the test book. After you have decided which of the answers is correct, circle the corresponding letter on the answer sheet. Give only one answer to each question. If you change an answer, be sure that all previous marks are erased completely. Incomplete erasures may be interpreted as intended answers. All your answers must be marked on the answer sheet unless you have been specifically approved by Accommodated Testing to mark your answers in your test book.

There may be more question numbers on the answer sheet than there are questions in a section. Do not be concerned, but be certain that the section and number of the question you are answering matches the answer sheet section and question number. Additional answer spaces in any answer sheet section should be left blank. Begin your next section in the number one answer space for that section.
