#### REMINDERS:

- ✓ For your LSAT to be considered complete, you will need to take the LSAT Writing section of the test. You have from the date of the LSAT to up to one year to take it. You only need to complete one for your LSAT to be complete and reported to schools.
- ✓ Test takers sign a certifying statement promising not to discuss any portion of the test with anyone. Violating this agreement may result in serious implications, including misconduct proceeding that may result in a ban on future registrations.
